

SAMSUNG

Galaxy S6 edge+

NEXT IS NOW

Next is designed to keep you going

Even though it's gorgeous, perhaps the most beautiful parts are on the inside. The Octa-Core processor delivers incredibly fast, powerful and efficient performance so your work or social life doesn't have to wait. Then there's the battery. With outstanding life, Ultra-Fast Charging and built-in wireless charging capabilities*, it's designed to keep you going, and going. Together, they make an incredible team.

*Compatible charging pad required, sold separately.

Next is turning heads, and corners

Introducing the Samsung Galaxy S6 edge+. Welcome to beauty without borders: a design that feels like it melts away for a stunning, immersive 5.7" screen experience. Swiping the edge checks for calls and notifications from your loved ones. It also makes staying connected via email, messages or social feeds simple and accessible*. More than just dazzling, it lives in that special place where form meets function.

*Internet connection required. Data and other charges may apply.

Next is screen deep beauty

Continuing on with the theme of brilliance, the display is a case of high-art meets high-tech. With a pixel-rich Super AMOLED display, images are so vivid, clear and beautiful, simple viewing feels like stepping into an amazing new world. A world where you can see all of your pictures and videos in their true-to-life, crystal clear glory.

Next is your life, captured brilliantly

Lasting memories will be created with ease, confidence and some ingenious technology. Incredibly vivid, bright and fast cameras front and back help keep virtually everything and everyone looking sharp, even in low light conditions. And because timing is everything, a simple 'double tap' launches the camera in under a second so that precious moments aren't lost – but shared.

Next is making it yours

Customise without compromise. Complement your beautiful smartphone with our premium accessories; everything has been designed to let you express yourself with a sense of elegance and style. And staying in tune with you also goes beyond looks. The Milk Music™ service streams to you the sounds you love now, as well as those you'll love tomorrow*. All part of having it your way, every day.

*Internet connection required. Data and other charges may apply. See www.milkmusic.com.au for more details.

Next is keeping what's yours, yours

You'll love the security as much as the design. From the simple, touch-based fingerprint recognition to the built-in malware protection, it knows how to look after itself – and you. And that means less worrying, more living.
