

SAMSUNG Gear S2

Full circle experience

The new Samsung Gear S2 has a rotating bezel, along with the Home and Back buttons so you can experience a quick, precise method to comfortably access notifications and applications.

At a mere 11.4-millimeter thin with a 1.2 inch circular screen, the Samsung Gear S2 brings a light and compact design to your wrist. Available in dark grey with dark grey band or silver with a white band for Gear S2 and an elegant black watch with a leather band for Gear S Classic, there's no doubt you'll find the right design and device for you.

Keeping connected

You can stay connected with at-a-glance notifications to check your calendars, e-mails, news and can even send important texts directly from your wrist*. In a meeting? Set your customised reply setting such as "in a meeting, call you as soon as I can" when you're unavailable without having to touch your compatible smartphone.

Staying on track

New fitness functions on the Samsung Gear S2 will encourage you to stay healthy and active*. The 24-hour activity log lets you view daily activity progress and patterns at a glance. It will also send reminder updates to motivate you to stay on track with your fitness goals. Plus, with an IP68** certified rating it gives you all the convenience in your active lifestyle. Resistant against water ingress to a maximum of 1.5 metres (for up to 30 minutes) and dust ingress.

Power when you need it

To charge, simply place the Samsung Gear S2 on the wireless charging dock right out of the box. It's that easy.
